

Comprehensive Cancer Control National Partnership HPV Workshop

Participant Evaluation Summary

Presentations/Sessions

Day 1: May 3, 2016

44 evaluations returned for Day 1; not all respondents answered all questions

1. **Opening Session: Our Opportunity to Prevent Cancer**

Speakers: Melinda Wharton and Noel Brewer

9:30am

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented about the state of the science of HPV vaccination	29	14	1	0	0	0
Information presented about the scope and importance of national efforts to increase vaccination uptake	30	12	2	0	0	0
Usefulness of the information presented	32	8	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	14	15	14	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	28	14	1	0	0	0
Overall Session	32	10	2	0	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- National partnership efforts, e.g. CDC & Walgreens
- More info on head and neck/penile/rectal HPV data
- What to do for increasing rates among primary care clinics that do not provide immunizations
- Looking forward to presentation on funding initiatives (mentioned will come later)
- Outstanding talks!

Please provide any additional comments about this session:

- excellent presentations
- thank you for simplifying steps
- great idea to reframe “on time” vs. “late”
- Noel was awesome (2)
- Took ideas that can be implemented in our own state – each presenter gave realistic action items
- Provide slides ahead of time

- Might be good to have group brainstorming time built in after each session
- Wanted more interaction between states

2. **A Look at Successful HPV Efforts: Focus on Policy and System Change Evidence Based Interventions**

Speakers: Citseko Staples, Heather Brandt, Robin Curtis

10:30am

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented on successful HPV policy and systems change interventions	24	15	4	0	0	0
Usefulness of the information presented	26	12	3	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	17	12	12	2	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	24	15	3	1	0	0
Overall session	27	11	4	1	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- More on coverage policies
- More information from SC on use of pharmacies
- Cost barriers to HPV vaccination
- Provide specific e.g. Re: how ACS CAN can assist
- More time
- Common challenges found in systems change and creative solutions

Please provide any additional comments about this session:

- Very practical
- SC was a great model for big "P"
- Good to hear Dr. Curtis make a strong recommendation
- Good realistic look at policy from ACS CAN
- Great job of presenting office to exam room (Heather)
- Tied presentation back to previous presenters
- Good overview of SC efforts
- Best: if resources are limited, start w/providers
- Excellent presentations

3. **Showcase of Partner Resources**

Speakers: Aubrey Villalobos, Sara Comstock, Cindy Vinson, Jill Roark, Katy Gore

11:45am

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented about available HPV vaccination resources from national partners	18	20	6	0	0	0
Usefulness of the information presented	20	17	5	0	0	0
My knowledge of available HPV vaccination resources prior to attending this session	16	18	11	3	0	0
My knowledge of available HPV vaccination resources after attending this session	20	20	4	0	0	0
Overall session	20	17	5	0	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- Handouts and correct links
- Presentation not needed – could have provided list
- Compare and contrast resources – why use one vs. another
- Clarify how partner resources overlap
- Parent video resources

Please provide any additional comments about this session:

- Loved this session – need slides and links to follow up
- Very good information
- Slightly overwhelming – give to teams ahead of time so they can use in action planning
- Very quick, need copies of slides; seemed rushed; wish we had handouts with links (3)
- Brainstorm session was oddly placed, but started good conversation that could have carried thru to lunch
- Time could have been used for brainstorming

4. **A Look at Successful HPV Efforts: Focus on Partnerships**

Speakers: Deanna Kepka, Krystal Morwood

1:15pm

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented about ways to build and maintain partnerships to support HPV vaccination efforts in a state	17	16	7	0	0	0
Usefulness of the information presented	17	12	11	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	11	14	14	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	15	18	7	0	0	0
Overall session	20	12	8	0	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- Specifics on how, when, how often, task forces, etc.
- Additional corporate partners besides pharma for sustainable effort

Please provide any additional comments about this session:

- Loved hearing from states on their work
- Appreciated discussion
- Change up, revise the agenda format after lunch – switch to panel presentation

5. **Just the Facts**

Speaker: Molly Black

2:15pm

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented about facts and myths surrounding HPV vaccination, and how to address these issues	25	14	5	0	0	0
Usefulness of the information presented	26	13	4	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	15	14	13	2	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	22	16	5	0	0	0
Overall session	28	12	4	0	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them: NA

Please provide any additional comments about this session:

- Best one!
- Need more time / more time for questions (2)
- Enjoyed interactive presentation, very informative
- Loved interactive portion
- Thank you nice group activity
- Although interesting to discuss, not necessary since already familiar

6. **A Look at Successful HPV Efforts: Working with Large Health Systems**

Speakers: Lexi Haux, Tracy Bieber, Eldrina Easterly, Treg Long

2:45pm

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented on working with health systems to increase HPV vaccination uptake	15	24	5	0	0	0
Usefulness of the information presented	14	22	5	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	9	16	14	3	0	1
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	13	23	6	1	0	1
Overall session	14	22	5	1	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- Initiating conversations with health plans
- More information about how to partner with health systems and who to partner with
- Had to step out for ½ of this session (= did not attend, above)

Please provide any additional comments about this session:

- Excellent and different but would have preferred background of how to identify health systems
- Great to hear what is going on in the states and what best practices are working
- Helped with lessons learned and successes shared
- Well done – enjoyed hearing from states
- SD info very useful

Comprehensive Cancer Control National Partnership HPV Workshop

Participant Evaluation Summary

Presentations/Sessions

Day 2: May 4, 2016

37 evaluations returned for Day 2; not all respondents answered all questions

1. **Evaluating HPV Vaccination Policy and System Changes**

Speaker: Kristi Fultz-Butts

8:45am

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Information presented on evaluating HPV vaccination policy and system changes	18	14	4	0	0	0
Usefulness of the information presented	19	12	4	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this session	10	11	9	5	1	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this session	16	13	7	0	0	0
Overall session	20	12	4	0	0	0

Were there additional topics you would have liked to have heard about during this session? If yes, please list them:

- More about evaluators role
- Less about definition of evaluation, more about deeper basics
- How to develop an implementation/evaluation plan prior to implementing/working on plan
- More on evaluation partnerships
- An example of member contribution analysis
- How to tease out environmental factors

Please provide any additional comments about this session:

- Very important presentation! It is essential that a work plan/strategic plan be doable and have evaluation ongoing - need more focus on evaluation
- Great help, very useful; great Q&A
- Very nice job Kristi!
- Will be assuming my superhero pose (2)
- Presenter upbeat and insightful, great reminders about evaluation; I like how she used an example from Day 1 to show eval plan

2. Roundtable Discussions

9:15am

First Roundtable Results: 2 respondents did not mark which session they were rating; these responses were left out of the summary

Please mark the first roundtable discussion you participated in:						
<input checked="" type="checkbox"/> Advocating for policy changes (Citseko Staples) (5 respondents)						
<input type="checkbox"/> Making system changes to support vaccination (Debbie Saslow)						
<input type="checkbox"/> Working with physicians and other providers (Sarah Kobrin)						
<input type="checkbox"/> Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)						
<input type="checkbox"/> Countering anti-vaccine press and reframing the vaccine message (Jill Roark)						
<input type="checkbox"/> Linkages to immunization programs (Achal Bhatt)						
	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	2	3	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	1	1	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	1	4	0	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	3	1	1	0	0	0
Sufficient time was allotted for discussion	2	3	0	0	0	0

Please provide any additional comments about this **first** discussion:

- Would have liked more time
- Great to share and discuss with other states
- Great talk and connection
- SD shared awesome little “p” system policy they are implementing that would have been good to share with all states

Please mark the **first** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ✓ **Making system changes to support vaccination (Debbie Saslow) (4 respondents)**
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	2	2	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	1	2	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	1	3	0	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	2	2	0	0	0	0
Sufficient time was allotted for discussion	1	3	0	0	0	0

Please provide any additional comments about this **first** discussion:

- Excellent discussion – would have liked more time
- Favorite session!

Please mark the **first** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☒ **Working with physicians and other providers (Sarah Kobrin) (8 respondents)**
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	3	2	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	2	4	2	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	4	3	1	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	2	4	2	0	0	0
Sufficient time was allotted for discussion	2	4	2	0	0	0

Please provide any additional comments about this **first** discussion:

- Unable to hear – other tables too close (3)

Please mark the **first** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☒ **Increasing vaccination of boys (Mona Saraiya and Melinda Wharton) (5 respondents)**
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	2	2	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	0	3	1	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	2	2	1	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	3	2	0	0	0	0
Sufficient time was allotted for discussion	2	3	0	0	0	0

Please provide any additional comments about this **first** discussion:

- Very nice discussion
- Thought it was a good discussion

Please mark the first roundtable discussion you participated in:						
<input type="checkbox"/> Advocating for policy changes (Citseko Staples) <input type="checkbox"/> Making system changes to support vaccination (Debbie Saslow) <input type="checkbox"/> Working with physicians and other providers (Sarah Kobrin) <input type="checkbox"/> Increasing vaccination of boys (Mona Saraiya and Melinda Wharton) <input checked="" type="checkbox"/> Countering anti-vaccine press and reframing the vaccine message (Jill Roark) (7 respondents) <input type="checkbox"/> Linkages to immunization programs (Achal Bhatt)						
	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	5	2	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	2	3	2	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	4	2	1	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	3	4	0	0	0	0
Sufficient time was allotted for discussion	2	5	0	0	0	0

Please provide any additional comments about this **first** discussion:

- Jill very informative and knowledgeable (2) and also personable
- Really enjoyed – opportunity to ask burning questions
- Provide separate room/more spacing – too noisy

Please mark the **first** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☒ **Linkages to immunization programs (Achal Bhatt) (5 respondents)**

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	3	1	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	2	0	2	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	2	2	1	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	1	3	1	0	0	0
Sufficient time was allotted for discussion	2	2	1	0	0	0

Please provide any additional comments about this **first** discussion:

- Hard to hear/focus

Second Roundtable Results: 1 respondent did not mark which session they attended; responses were left out

Please mark the second roundtable discussion you participated in:						
<input checked="" type="checkbox"/> Advocating for policy changes (Citseko Staples) (2 respondents) <input type="checkbox"/> Making system changes to support vaccination (Debbie Saslow) <input type="checkbox"/> Working with physicians and other providers (Sarah Kobrin) <input type="checkbox"/> Increasing vaccination of boys (Mona Saraiya and Melinda Wharton) <input type="checkbox"/> Countering anti-vaccine press and reframing the vaccine message (Jill Roark) <input type="checkbox"/> Linkages to immunization programs (Achal Bhatt)						
	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	2	0	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	2	0	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	2	0	0	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	1	1	0	0	0	0
Sufficient time was allotted for discussion	2	0	0	0	0	0

Please provide any additional comments about this **second** discussion: NA

Please mark the **second** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ✓ **Making system changes to support vaccination (Debbie Saslow) (7 respondents)**
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	2	4	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	1	3	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	2	4	1	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	4	2	1	0	0	0
Sufficient time was allotted for discussion	3	4	0	0	0	0

Please provide any additional comments about this **second** discussion:

- Would have liked more discussion vs. lecture
- Great to share with other states
- Great talk and connections

Please mark the **second** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☒ **Working with physicians and other providers (Sarah Kobrin) (7 respondents)**
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	6	1	0	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	3	1	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	4	1	2	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	3	3	1	0	0	0
Sufficient time was allotted for discussion	5	2	0	0	0	0

Please provide any additional comments about this **second** discussion:

- Leader very soft spoken, hard to hear
- Good suggestions and lessons learned
- Very important and useful discussion

Please mark the **second** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☒ **Increasing vaccination of boys (Mona Saraiya and Melinda Wharton) (5 respondents)**
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	0	2	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	0	2	2	1	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	0	2	2	1	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	0	5	0	0	0	0
Sufficient time was allotted for discussion	0	5	0	0	0	0

Please provide any additional comments about this **second** discussion:

- Not necessarily useful to isolate boys as a topic

Please mark the **second** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☒ **Countering anti-vaccine press and reframing the vaccine message (Jill Roark) (8 respondents)**
- ☐ Linkages to immunization programs (Achal Bhatt)

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	3	4	1	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	1	1	6	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	3	3	2	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	3	4	1	0	0	0
Sufficient time was allotted for discussion	4	4	0	0	0	0

Please provide any additional comments about this **second** discussion:

- Much better – could hear all comments in this group

Please mark the **second** roundtable discussion you participated in:

- ☐ Advocating for policy changes (Citseko Staples)
- ☐ Making system changes to support vaccination (Debbie Saslow)
- ☐ Working with physicians and other providers (Sarah Kobrin)
- ☐ Increasing vaccination of boys (Mona Saraiya and Melinda Wharton)
- ☐ Countering anti-vaccine press and reframing the vaccine message (Jill Roark)
- ☒ **Linkages to immunization programs (Achal Bhatt) (3 respondents)**

	Excellent	Very Good	Good	Poor	Fair	Did not attend session
Usefulness of the information shared	0	0	3	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area prior to attending this roundtable discussion	0	1	2	0	0	0
My ability to apply concepts to an actual problem or situation in this subject area after attending this roundtable discussion	0	1	2	0	0	0
	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree	Did not attend session
I had a chance to share challenges and successes from my state during the discussion	1	2	0	0	0	0
Sufficient time was allotted for discussion	1	2	0	0	0	0

Please provide any additional comments about this **second** discussion:

- Maybe more facilitation to keep on topic – but great info shared

Were there additional topics you wished you had the chance to discuss with other participants? If yes, please list them here: NA

Team Brainstorming/Action Planning

Please respond to the following questions regarding your experiences with your team sessions:

3. Please indicate the extent to which you agree or disagree with the following statements:

	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree
The pre-workshop assignment was helpful preparation for the team discussions	14	17	2	0	0
I played an active role in the action planning sessions	21	12	0	0	0
The opportunity to do brainstorming about the information presented during the workshop prepared me for a productive action planning session	21	11	0	0	0
The facilitator was an effective communicator	19	10	1	0	0
The facilitator helped our team create a realistic action plan	19	11	1	0	0
Having access to a SME during the action planning sessions was beneficial	20	8	3	0	0

4. After participating in your team's action planning session, how confident are you in implementing your action plan?

- ☐ Extremely confident = 9
- ☐ Quite confident = 17
- ☐ Moderately confident = 2
- ☐ Slightly confident = 2
- ☐ Not at all confident = 0

5. I would rate the action planning discussions as:

- ☐ Excellent = 24
- ☐ Good = 9
- ☐ Average
- ☐ Fair
- ☐ Poor

Please give reasons for your rating. Be specific, give examples:

- Provided steps to break down daunting assignment
- Good discussion with all partners – e.g. able to explain AFIX
- Team was able to rule out activities not feasible this year – set up sustainable structure for moving forward
- Team works well together – we developed a realistic action plan guided by goals in cancer plan

- Was able to hone in on specific actions based on ideas we heard
- Concrete plan and time for us to express what needs to be done (normally not sure when and where we would do this)
- Loved how facilitator and SME kept us on track
- Facilitator was strong and encouraging
- Gave me an opportunity to think out loud and give input and have interactive discussion
- Most helpful part of workshop
- Known staff changes among core groups will create some instability (2)
- Needed discussion on partnership needs and barriers – focus on organizational problems superseded action planning at times

6. **How useful do you think the poster session was to allow state teams to see and discuss other team action plans?**

- ☐ Very useful = 15 – “great opportunity to meet leaders in other states”
- ☐ Useful = 14
- ☐ Only slightly useful = 6 – “needed each team to present their plans and do Q&A”
- ☐ Not useful = 0
- ☐ I did not participate = 0

The HPV Workshop Overall

7. **Please rate the workshop according to the outcomes for teams participating in the workshop:**

Outcome	Met	Not Met
Develop a realistic evidence-based action plan that leverages existing networks, systems and relationships to further the state’s efforts in increasing their HPV vaccination rates	34	2*
Increase understanding of proven strategies that advance implementation of state cancer plan HPV vaccination objectives, through the collaboration of state and local stakeholders	35	1
Share real-life examples of successful HPV vaccinations efforts in the field that illustrate working with a variety of partners and settings	36	0
Increase awareness of the availability of existing evidence-based tools and resources designed to help increase HPV vaccination rates	36	0
Form new and strengthen existing HPV vaccination relationships within the CCC coalitions and among state partners	36	0

**1 respondent indicated it may be difficult to implement plan, but “hopeful”*

Please provide any additional comments about your responses above:

- Workshop and agenda was very thoughtfully put together, thanks!
- Need to fill in details, but we have a good beginning, thanks!!
- Liked roundtable format and team brainstorming. Meeting productive. We walked away with realistic action plan. I attended the CRC Forum and this workshop was more beneficial and productive.
- Great use of my time – loved it!
- Make slides available ahead of time

- Need facilitated interaction with other teams in the beginning to get discussion going
- Need more time in breakouts, roundtables
- Instead of poster session let teams present action plans
- Too much sitting
- Coffee and tea instead of soda at break/lunch time (2)
- Should have discussed how states were select at outset of meeting
- Team not aware of follow up plans – should have laid this out at the beginning (team afraid it will mean more time without \$ for efforts)
- Room awkward, too noisy, tables too close together
- Very little discussion of proven strategies, aside from brief mention about a strong provider recommendation. For example, there was basically no discussion of reminder/recall , standing orders, etc.

8. Please indicate the extent to which you agree or disagree with the following statements.

	Strongly Agree	Agree	Neither Agree or Disagree	Disagree	Strongly Disagree
The workshop was informative and useful	26	7	0	0	0
The workshop met my expectations	26	7	1	0	0
The workshop materials were informative and will serve as a resource as I continue this work	26	8	0	0	0
The workshop helped me create an achievable action plan grounded in evidenced-based strategies to increase HPV vaccination uptake	21	11	1	0	0
The workshop provided me opportunities to network with other professionals	25	9	0	0	0
I found value in developing or strengthening partnerships within my state team	25	8	1	0	0
I plan on collaborating with my state team after the workshop to follow-up on ideas we discussed	27	4	1	0	0

9. Please describe your overall experience during the HPV Workshop (i.e., what you liked the most, what can be improved, what you learned or gained through participation, etc.)

- Excellent job by organizers. I wish every state could participate in a workshop like this.
- Loved hearing ideas and experiences of others during roundtables (4) and resources session
- Great to have dedicated time and space to focus on HPV vaccination – doesn't happen enough

- Loved focus on developing state team
- Great speakers and opportunity for meaningful interaction, thank you! (2)
- Excellent workshop (2) – reenergized to do this work
- Would like to see more info on utilizing survivors
- Well organized, great content
- Liked learning about ACS activities
- Very enjoyable – best: new connections
- Great to hear expert info and learn from other states
- Would like to have more re: EBI, steps and tools – only mentioned in passing
- Would have been helpful to have more time as a team
- Dr. Curtis great help with action plan
- Final session should have been team presentations
- Need electronic version of action plan during team meetings
- Too noisy and close

10. **Did the workshop spark any ideas that will cause you to approach your work differently in the coming year? Or did you take away a profound thought, idea or action that you will apply?**

☐ Yes = 29

☐ No = 0

If yes, please identify the most important “take-aways”/thoughts.

- High quality provider recommendation needed – announce on time vs. late (8)
- Evaluation
- Engaging pharmacists
- Ways to work with and measure work with FQHCs and large health systems
- Resources, myth busters
- Knowing we are on the right track, despite challenges
- Networking was excellent
- Look for MD champions
- Try to get more providers to participate
- Future grant application initiatives and goals
- HPV vaccination is the new norm
- Ways to reenergize stakeholders
- Improve visibility/communication of HPV coalition
- Developing a strong message
- Someone you love viewing session
- Action plan (2)

11. **Please list below the kinds of technical assistance you think would be most helpful as you work with your state team to implement the action plan you developed during the workshop. Please be specific in terms of what the technical assistance should focus on and how it can best be delivered to support your efforts.**

- Not there yet but good to know who to turn to
- Learning how other states are doing; helping us keep on track (2)
- Ongoing direct support from you as we need it – no lag time
- Provide encouragement to keep us motivated
- Accountability
- Check-ins and updates on new resources
- Provide updates on HPV happenings
- Bigger picture
- Feedback on overall effort
- Success stories
- Edits to plan
- Providing resources, contacts to assist with successful implementation of action plan
- Working with Medicaid
- Data indicators for tracking HPV vaccination thru EHRs
- Identification of \$ resources
- \$ to advance action plan activities
- Environmental scan examples
- Website development
- Help developing model policies for little “p” change
- Newest data and trends
