

ICF Support to NCI & Grantees

1. Technical consultation

- Design – probability vs non-probability, mode, stratification
- Instrumentation – constructs, measures, instrument selection (BRFSS, HINTS, NHIS)
- Data collection – field challenges, QA/QC
- Data production – weighting, dataset production, documentation, standards

2. Data harmonization

- Identify candidate pool of items for data collection
- Approaches to harmonization on the backend

3. Monitoring

- Support monthly meetings, timeline, deliverables

4. Data sharing

- Federal government, NIH, & NCI open data policy
- Data and documentation release standards

5. Summarize results in a technical report

Project Management and ICF Team

- **Project Management & communication: Kelly Blake → Tonja Kyle**

- Tonja Kyle, MS: Tonja.Kyle@icf.com, 301-572-0820

- **ICF Team**

- Audie Atienza, PhD: Technical Consultation, open data
- Bridget Beavers, BA: Technical Consultation, data harmonization
- Lew Berman, PhD: Technical Consultation, open data, technical report
- John Boyle, PhD: Technical Consultation
- Ronaldo Iachan, PhD: Technical consultation, technical report
- Kelly Martin, MPH: Technical Consultation, data harmonization
- Deirdre Middleton, MPH: Technical Consultation, data harmonization, technical report
- Matt Thomas, PhD: Technical Consultation, technical report
- Bob Tortora, PhD: Technical Consultation

- **Period of Performance: September 2016 – August 2017**
